John,

I am currently reviewing the 2009 Annual Report for Emery. The report does not contain the estimated sediment accumulation elevations for Ponds 1 & 6. Ponds 2, 3, 5, 8, & 9 do contain this elevation. Please have the certification sheets for Ponds 1 & 6 revised to include the approximate sediment accumulation elevation and re-submit them to be substituted in the 2009 Annual Report.

Thanks,  
Karl
