John,

Attached is the modified NOV that we discussed this morning. I called Jacob Sharp with Castle Valley Special Services District after I got off the phone with you. He indicated that the wells are the only back up system for the town of Emery and he understood the issue that we're trying to sort through. When I asked him what type of monitoring (if any) the town of Emery conducts on the wells to insure their back up water supply is still there, he indicated that they weren't monitoring, but that they should. If repairs to the wells are necessary in order to obtain accurate data from the wells, Mr. Sharp indicated that the town of Emery would be interested in pursuing that. We can discuss that more later.

Give me a call if you have any questions. I've modified the due date for the NOV to December 1st. With any luck, we'll get a game plan together before then.

Have a good weekend.
Steve

Permittee Name: CONSOLIDATION COAL CO	Inspector Number and ID: 54 SCHRISTE
Mine Name: EMERY DEEP MINE	Date and Time of Action:
Certified Return Receipt Number: 7005 0390 0000 7507 4825	Date and Time of Service:

In accordance with the provisions of the Utah Coal Mining and Reclamation Act, Utah Code Ann. § 40-10-1 et. seq. (Act), the above referenced Citation is:

Modified as follows:
The due date for the Permittee to submit the Emery Town Wells reports has been extended to December 1st, 2010.

Reason for modification:

The Emery Town Wells are obstructed and water level data is currently unobtainable. Additional time is necessary in order for the Permittee to work with Castle Valley Special Services District personnel in determining how to proceed with water level data collection.
