- Underground
- Surface
- Loadout
- Processing
- Reprocessing

Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

The mine is inactive. The Emery Deep mine site has been recently sold to Bronco Utah Operations LLC. An application for a permit transfer has been submitted to the Division. Currently the permit is still under Consol. The inspection was conducted with Russel Jensen a Consol employee.

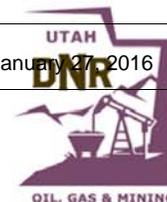

Employees of Bronco are at the Emery mine and are starting to remove conveyor s from the 4th east portals. These conveyors will be stored at the main mine site storage area. These structures will be used at the site of the new mine portals. The permittee will need to submit an amendment and receive Division approval for these new mine portals. No construction can occur without prior approval from the Division.

Stephen J. Demczak

Inspector's Signature:

Steve Demczak,
Inspector ID Number: 39

Date Wednesday, January 27, 2016

REVIEW OF PERMIT, PERFORMANCE STANDARDS PERMIT CONDITION REQUIREMENTS

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
 - a. For COMPLETE inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check Not Applicable.
 - b. For PARTIAL inspections check only the elements evaluated.
2. Document any noncompliance situation by reference the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Divison Orders, and amendments.

1. Permits, Change, Transfer, Renewal, Sale

Emery Mining Permit Transfer is scheduled to be completed by February 16th.

2. Signs and Markers

Identification signs are still with Consolidation Coal Company. This information is accurate until the permit transfer takes place. A new identification signs will be needed when the transfer is completed. The future permittee should review the Coal Rules detailing the required information needed for identification signs.

3. Topsoil

The topsoil piles are snow covered.

4.a Hydrologic Balance: Diversions

Some of the diversions were snow covered. The diversions that were not snow cover were inspected. These diversions and culverts were open and functioning as designed.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

The sediment ponds at the 4th East portal and storage main storage area at the main mine site need to be cleaned out to the appropriate capacity. The ponds have been surveyed indicating that the sediment is above the 60 percent level. The ponds will need to be cleaned by no later than February 29th, 2016.

7. Coal Mine Waste, Refuse Piles, Impoundments

The refuse pile is small and has been inactive for several months. No hazardous conditions were notice during the inspection.

8. Noncoal Waste

The site was clear of non-coal waste materials.

15. Cessation of Operations

It is rumored that Bronco wants to begin mining at the portals by the end of May 2016. At the current time no permitting action has been submitted to the Division. This action could only be review after permit transfer is approved.

16.b Roads: Drainage Controls

Road drainage was functioning as design.

18. Support Facilities, Utility Installations

Conveyor structure was in the process of being disassemble at the 4th East portals. This indicates the 4th East portals will not be used at least in the near future.
