JOHN R. BAZA
Division Director

Inspection Report

Permit Number:	C0150015
Inspection Type:	PARTIAL
Inspection Date:	Wednesday, April 26, 2017
Start Date/Time:	4/26/2017 11:00:00 AM
End Date/Time:	4/26/2017 2:00:00 PM
Last Inspection:	Wednesday, March 08, 2017

Inspector: Steve Demczak

Weather: Windy, 50's Partly Cloudy

InspectionID Report Number: 5832

Accepted by: DHADDOCK

4/28/2017

Representatives Present During the Inspection:	
Company	Kit Pappas
OGM	Karl Houskeeper
OGM	Steve Demczak

Permittee: **BRONCO UTAH OPERATIONS, LLC**
 Operator: **BRONCO UTAH OPERATIONS, LLC**
 Site: **EMERY DEEP MINE**
 Address: **PO BOX 527, EMERY UT 84522**
 County: **EMERY**
 Permit Type: **PERMANENT COAL PROGRAM**
 Permit Status: **ACTIVE**

Current Acreages

473.80	Total Permitted
85.90	Total Disturbed
	Phase I
	Phase II
	Phase III

Mineral Ownership

- Federal
- State
- County
- Fee
- Other

Types of Operations

- Underground
- Surface
- Loadout
- Processing
- Reprocessing

Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

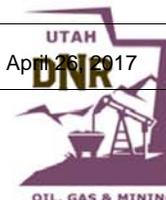

The Permittee is in the process of gaining access to the new portal area. They are removing earthen material to get grade. Water tank and some components of fan installation were above the portals on pad area. Topsoil has been removed from this area and sediment control installed. The permittee will raise bore from underground. New culverts are on site to bypass water.

Stephen J. Demczak

Inspector's Signature:

Steve Demczak,
Inspector ID Number: 39

Date Wednesday, April 26, 2017

REVIEW OF PERMIT, PERFORMANCE STANDARDS PERMIT CONDITION REQUIREMENTS

1. Substantiate the elements on this inspection by checking the appropriate performance standard.
 - a. For COMPLETE inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check Not Applicable.
 - b. For PARTIAL inspections check only the elements evaluated.
2. Document any noncompliance situation by reference the NOV issued at the appropriate performance standard listed below.
3. Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
4. Provide a brief status report for all pending enforcement actions, permit conditions, Divison Orders, and amendments.

1. Permits, Change, Transfer, Renewal, Sale

There are no permitting actions with the Division at this time. The Annual Report is under review with the Division.

2. Signs and Markers

I inspected the identification sign and it meets the requirements of the R645 Coal Rules. The sign has all the required information. See Photo

3. Topsoil

The permittee has enlarged the topsoil pile by the refuse pile. A soil is located on the refuse pile. The topsoil pile is protected by a berm. Seeding this area will be needed. See Photo

4.a Hydrologic Balance: Diversions

The diversions and culverts were spot check and were functioning as designed. In the near future the permittee will be installing a bypass culvert at the new portals.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

I inspected the sediment ponds throughout the property. They did not contain water. It is unlikely these structures will discharge in the near future. The embankments appear to be stable. Inlets and outlets would function as designed. I did not see any hazardous conditions to these structures.

4.c Hydrologic Balance: Other Sediment Control Measures

Silt fences and waddles were inspected and comply with the requirement of the R645 Coal Rules. Waddles are located along the new road to the fan and water tank area.

5. Explosives

The permittee has been blasting large rocks and to break up ground for easier excavation. I have copies of the blast pattern. These documents are signed by a certified blaster. This information is given to staff in Salt Lake City.

6. Disposal of Excess Spoil, Fills, Benches

7. Coal Mine Waste, Refuse Piles, Impoundments

I inspected the refuse pile and it appears to be stable. I did not notice any hazardous conditions to the embankments. The refuse pile is active. This is the location of material being removed to access the new portals and the development of a new road to the portals.

18. Support Facilities, Utility Installations

The permittee is in compliance with the permit of installing new facilities.
