Memo to Coal File:

RE: Des-Bee-Dove Mine
Utah Power & Light
ACT/015/017
Emery County, Utah

On October 17, 1980, Mary Ann Wright of the Division accompanied Jerry Barker, consultant, on a tour of proposed reference areas. Two were proposed for this site, pinyon-juniper and Salt Desert shrub.

The Salt Desert shrub site was not visited due to its inaccessability (near the sediment pond) and lack of time. The areas are marked in the field with green posts.
