Inspection Memo
to Coal File:

RE: Utah Power & Light Co.
Church Mines
ACT/015/017
Emery County, Utah

The above-mentioned mine operation was given a partial inspection on July 29, 1981. Inspectors Dave Lof and Sandy Pruitt were accompanied by Larry Guymon during the inspection.

The purpose of the inspection was to introduce Dave Lof to the Church Mine operation. Road maintenance was underway at the time of the inspection. The highwall above the bathhouse has been blasted recently. Records were kept and should be available at the office. The flyrock material is planned for use as fill. No other new developments were apparent and no violations were warranted at this time.
