Memo to File:

RE: Utah Power & Light Co.
N81-1-2-1
ACT/015/017
Church Mine

This violation, written on May 19, 1981 by Joe Helfrich was assessed on June 12, 1981 at \$50.00 as a proposed assessment. No contest was made by the company.

A telephone conversation with Mr. Bill McQuay today indicated that he received a finalized assessment for this violation. The finalized assessment was dated October 31, 1981, but apparently contained an error on the amount of the finalized assessment. The final assessment was set at \$520.00 and eventually agreed that this was an error.

Bill agreed that he would submit the originally-assessed \$50.00 to the Division as soon as possible and that this would settle NOV N81-1-2-1.
