Dear Chris:

Enclosed are the two determination of adequacy reviews prepared for hydrologic aspects of the Deer Creek and Des-Bee-Dove mines. Please do not respond to this portion separate from the rest of the sections forthcoming, but enclose the total response as one package. This transmittal is meant to give you something to get started on, as the rest of the package is being prepared. The complete response is meant to be prepared by the applicant and received by OSM no later than November 9, 1983.
