Mr. Allen D. Klein, Administrator  
Western Technical Center  
Office of Surface Mining  
Brooks Towers  
1020 Fifteenth Street  
Denver, Colorado 80202

Dear Mr. Klein:

RE: Mining and Reclamation Plan Revision, Sediment Storage  
Plans, Utah Power & Light Company, Des-Bee-Dove Mines,  
ACT/015/017, #3, Emery County, Utah

Enclosed please find seven (7) copies of Utah Power & Light Company's plans for their proposed sediment control pond. This information is provided to update your files and current Mining and Reclamation Plan copy.

There is some confusion as to how this information should be processed and approved. Is this to be considered a permitting issue and therefore under OSM's lead review? Does the OSM prefer to defer the processing to the DOGM and make the final approved plans part of the PAP? Please advise at your earliest convenience. The Division will suspend the review until receipt of your decision.

Should you have questions or problems pertaining to this information, please call me.

Sincerely,

A handwritten signature in cursive script that reads "D. Wayne Hedberg".

D. Wayne Hedberg  
Permit Supervisor/  
Reclamation Hydrologist
