Mr. D. Wayne Hedberg
 Permit Supervisor/Reclamation Hydrologist
 Division of Oil, Gas and Mining
 355 West North Temple
 3 Triad Center, Suite 350
 Salt Lake City, Utah 84180-1203

Dear Mr. Hedberg:

REGARDING: Response to deficiencies of Erosion Control Plan for
 Beehive Mine Substation area.

I am respectfully requesting a two (2) week extension of the deadline established for submittal of response to your letter dated May 29, 1985.

The need for an extension results from the increased involvement of our engineering personnel in activities at the Wilberg Mine, since May 24, 1985. The remote sealing operation and recent recovery plan modifications have required the attention of those people responsible for preparing the Erosion Control Plan.

Although we are continuing various activities at Wilberg Mine, I am certain the response to the deficiencies can now be completed by July 1, 1985.

Your consideration in this matter is appreciated. Please contact me if you have any questions or comments.

Sincerely,

Larry J. Guymon
 Construction Manager
