Re: Des-Bee-Dove Mine Permit Application

Dear Mr. Humphrey:

Enclosed are seven sets of revised and additional text along with drawings relating to the following concerns:

1. Additional text and drawing No. CM-10609-DS which detail the hydrologic calculations for the existing culverts on the Des-Bee-Dove/Wilberg junction road. This material is to be inserted into Volume No. 6.
2. Sedimentation pond hydrologic design modifications and the diversion to eliminate the surface runoff into the Beehive Mine. This section includes revised text. For Volume 2, revised maps to replace those in Map Packet 3-11, revised maps for Appendix VIII and revised hydrological calculations for Appendix VII. Remove first 14 pages of Appendix VII preceeding "Report of Site Investigations - - -".

Yours truly,

C. E. Shingleton
Director of Permitting,
Compliance & Services
Mining and Exploration
