RE: East Mountain 1984 Hydrological and Subsidence Reports

Dear Dr. Nielson:

Transmitted herein are 8 copies each of Utah Power and Light Company's annual East Mountain Hydrological and Subsidence Monitoring Reports for your distribution to both State and Federal agencies. These reports include the permitted and adjacent lands associated with the Deer Creek, Wilberg, and Des-Bee-Dove coal mines in Emery County, Utah.

Reports include monitoring to December 31, 1984.

In the interest of completeness, we feel it would be of significant value if we could access the same type data from operations adjacent to ours.

Would you please make available to our staff any information submitted that would extend our hydrologic regime.

Sincerely yours,

C. E. Shingleton  
Director of Permitting,  
Compliance & Services  
Mining & Exploration
