RE: Utah Power & Light Company, Des-Bee-Dove Mines,
ACT/015/017, #2 and #4, Emery County, Utah

As per letter of August 5, 1985, the Division approved plans addressing erosion control near the Beehive Substation at the Des-Bee-Dove Mines site. Since an implementation date was not indicated on the letter, Sandy Pruitt committed Larry Guymon, Mine Engineer, to an October 18, 1985 construction completion date.
