RE: Division Representation During Decision Document
Preparation for Des-Bee-Dove Haul Road, January 9 and
10, 1985, Denver, Colorado

*ACT/015/017
#2*

The Office of Surface Mining (OSM) requested that a Division representative be present in Denver, January 9 and 10, 1985 to assist Western Technical Center staff in immediate preparation of the draft Decision Document for permitting the Des-Bee-Dove haul road. This memorandum seeks approval for Pam Grubaugh-Littig or Tom Munson to travel to Denver the morning of January 9 and return to SLC the evening of January 10, 1985 in order to fulfill this request. Division representation and input during document preparation will expedite the pending approval for Utah Power & Light Company to utilize this haul road, which is especially important in light of the Company's plight at the Wilberg Mine.

Thank you for your attention to this matter.
