Mr. C. E. Shingleton  
Director of Permitting  
Compliance & Services  
Mining and Exploration  
Utah Power and Light Company  
P. O. Box 899  
Salt Lake City, Utah 84110

Dear Mr. Shingleton:

Re: August 15, 1985 Response to Condition #4, Des Bee Dove Mine Permit, ACT/015/017, Folder No. 2, Emery County, Utah

The Division has reviewed your August 15, 1985 response to condition #4 of the Des Bee Dove Permit. The Engineering report did contain cross-sections on an area map, however, the data relating to the analysis was not contained in your submittal. Please enclose the data and results of the stability analysis using the Spencer Method and computation associated with that method. Additionally the Division requires a Professional Engineer Certification for the report. Dr. Rollins should, stamp and date the signed report.

Please have your updated response to the stipulation into the Division by September 30, 1985. Thank you.

Sincerely,

L. P. Braxton  
Administrator  
Mineral Resource Development  
and Reclamation Program
