CERTIFIED RETURN RECEIPT REQUESTED  
(P 402 457 111)

Mr. Larry Guymon  
Emery Mining Corporation  
P. O. Box 310  
Huntington, Utah 84528

Dear Mr. Guymon:

RE: Conditional Approval of the Abatement Plans for Notice of Violation N84-2-22-1, Des-Bee-Dove-Wilberg Road, Erosion Control, Utah Power & Light Company, ACT/015/017, #4 and #7, Emery County, Utah

Based on an on-site inspection of the Des-Bee-Dove-Wilberg Road on February 27 by Sandy Pruitt, Larry Guymon and Tom Munson, the following problem areas were identified and need to be addressed before final approval can be issued.

Three culvert inlets associated with new culvert installations on the west side of the road and the two blocked culverts with newly disturbed areas around the inlets are to be adequately stabilized with riprap.

Once this task has been completed and these particular areas are stabilized, the operator must promptly notify the Division for final termination of Notice of Violation N84-2-22-1. It is our understanding that this work can be completed by March 8, 1985. Any further delay, due to construction problems, must be addressed in the form of a request for extension to existing time frames to Sandy Pruitt of the Division Inspection and Enforcement staff.

Mr. Larry Guymon  
ACT/015/017  
March 7, 1985

The road then needs to be monitored by EmeryMining Corporation for the next two years to determine the adequacy of these measures as well as the effectiveness of other erosion control measures and hydrologic structures associated with the Des-Bee-Dove-Wilberg Haul Road.

Should you have questions or concerns regarding this letter, please call Tom Munson or myself.

Thank you for your cooperation and patience in resolving these concerns.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor/  
Reclamation Hydrologist
