Dear Mr. Payne:

Re: Approval of Request for Extension of Implementation Date,
Des-Bee-Dove Sediment Pond Access Road Abatement Plans,
N85-2-22-1, Utah Power and Light Company, ACT/015/017, Folder
No. 7, Emery County, Utah

The Division has received your June 27, 1986 letter which outlined the circumstances and justification of your request to extend the implementation date for the above mentioned plans until early to mid September. The request is acceptable and approval is hereby granted to extend the implementation date until September 15, 1986.

Due to the long delay experienced in finalizing this abatement action, the Division does not anticipate granting additional extensions. Please be advised that the approved plans must be fully implemented by September 15, 1986. Additional enforcement action may be warranted should the operator fail to meet this deadline.

Should you have any questions or concerns, please contact me or Dave Wham.

Sincerely,

D. Wayne Hedberg
Permit Supervisor/
Reclamation Hydrologist
