Salt Lake City, Utah 84180-1204

Re: Mid-Term Review, Utah Power & Light Company,
Des-Bee-Dove Mine, ACT/015/017, Folder #2,
Emery County, Utah

Dear Mr. Whitehead:

The following information relates to Division comments regarding the Des-Bee-Dove Mine mid-term review of August 30, 1988.

UMC 782.13 - Identification of Interests (PGL,GAS,JSL)

Three (3) copies of Page 1-2 are attached with the appropriate correction.

UMC 784.14 - Reclamation Plan: Protection of Hydrologic Balance (TM)

I have suggested in the response to Division comments regarding the Deer Creek Mine mid-term review that a site visit to that mine be conducted soon. At the same time the Des-Bee-Dove concerns can be discussed with appropriate solutions found.

UMC 817.22(e) - Topsoil: Removal (JSL)

Soils from adjacent areas will be sampled during the summer of 1989 and results submitted to the Division prior to permit renewal.

UMC 784.13 - Reclamation Plan: General Requirements (PGL,BAS,JSL)

Utah Power & Light Company will talk with Emery County officials regarding ownership of the road and will respond to the Division after.

Mr. John Whitehead
September 28, 1988
Page 2

Utah Power & Light commits to reviewing the proposed seed mixes and make necessary changes to conform with the Division guidelines. This material will be submitted to the Division prior to permit renewal. See Page 4-22.1 of which three (3) copies are attached.

Soils data recently collected will be submitted to the Division by January 1989. See Page 4-22.1 of which three (3) copies are attached.

UMC 817.4 - Hydrologic Balance: Stream Channel Diversion (TM)

It is suggested that in connection with the site visit to the Deer Creek Mine by Division staff that a site visit to the Des-Bee-Dove facility also take place so a workable solution can be found.

If you have any questions please call.

Sincerely,

David Smaldone
Director of Permitting,
Compliance & Services
Mining Division
