RE: Mid Term Reply, September 28, 1988, Utah Power and
Light Company, Des-Bee-Dove Mine, ACT/015/017, Folder
No. 2, Emery County, Utah

UMC 817.22(e) Topsoil: Removal - (HS)

The Mid-Term Response to the Division's August 1988 comments received September 28, 1988, has been reviewed. The collection and submittal of soils from adjacent areas was to proceed during the summer of 1989.

Based on a telephone conversation on October 13, 1988 between Val Payne and myself, it was agreed that soil sampling of adjacent areas would proceed during the fall season of 1988 and results from this sampling be submitted to the Division as soon as possible.

RE: Mid-Term Reply, September 28, 1988, Utah Power and Light Company, Des-Bee-Dove Mine, ACT/015/017, Folder No. 2, Emery County, Utah

Synopsis and Analysis

Utah Power and Light Company's reply to the Mid-Term Review responded to two of my comments. Section UMC 782.13 (Identification of Interests) was corrected properly. Section UMC 784.13 (Reclamation Plan: General Requirements) regarding clarification of reclamation of the Wilberg/Des-Bee-Dove Junction road, will be addressed at a later date.

Recommendations

Section UMC 782.13 is approved. Section UMC 784.13 regarding future ownership (and/or reclamation) of the Wilberg/Des-Bee-Dove Junction road is still outstanding and requires a reply.
