Dear ^{Ray} Mr. Christensen:

Re: Mid Term Review, Utah Power and Light Company, Des-Bee-Dove Mine, ACT/015/017, Folder #2, Emery County, Utah

This letter is to notify you that the Division is initiating the mid-term permit review on the Des-Bee-Dove Mine as required by UMC 788.11. In order to complete the review in a timely fashion, given the field conditions presently, the following schedule is proposed.

- February 1, 1988 - DOGM initiates mid-term review.
- April 7, 1988 - site visit by DOGM staff to ascertain compliance with all permit conditions and MRP commitments.
- April 22, 1988 - DOGM notifies UP&L of any updates or changes needed in the MRP.
- May 27, 1988 - UP&L submits responses to changes requested in the Division's letter of April 22, 1988.

Thank you for your cooperation in this upcoming review. Please feel free to contact me or John Whitehead if you should have any questions regarding this matter.

Sincerely,
