OIL, GAS & MINING

January 20, 1989

John Whitehead
Permit Supervisor
Utah Division of Oil, Gas and Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180-1203

Dear Mr. Whitehead:

Recently UP&L Mining Division personnel have discussed regulations pertaining to Small Area Exemptions from Hydrologic Controls. These regulations are discussed in the Utah Coal Mining and Reclamation Regulatory Program, specifically UMC 817.42 (a) (3).

A table is enclosed which describes the Small Area Exemption Sites located at Utah Power & Light's mining operations. It is felt that these sites along with the corresponding sediment control measures meet the requirements of UMC 817.42 (a) (3).

If these sites meet with Division approval a table along with corresponding text and map updates will be submitted to you to incorporate into each UP&L mining permit. Please let me know if this approach is acceptable.

Sincerely,

Dave Smaldone
Director - Permitting,
Compliance and Services
