INSPECTION REPORT COMMENTS

Permit No. ACT/015/017

Inspection Date January 23, 1991

Please number comments to correspond with topics on previous page.

1. PERMITS

-Permit Number ACT/015/017 expired August 14, 1990. Since the permit was not renewed in a timely manner, the Division issued a Cessation Order (C.O. #C90-20-2-1) which included a schedule for upgrading the information in the Mine Permit. The permit is presently in the process of upgrading.

-UPDES permit was issued February 11, 1988. UPDES permit number is UT-0023591.

-Liability Insurance is held with Associated Electric and Gas Insurance Services, LTD. Policy Number is X0296A189. Insurance term is from 12-24-89 to cancellation.

-Reclamation bond is a surety bond in the amount of \$1,837,712. Bond is held with American Casualty Company of Reading, Pennsylvania. Bond number is #926-00-83. Bond was issued 1-25-85.

4. HYDROLOGIC BALANCE

(a) Stream Channel Diversions-The large half-round CMP culvert below the lower pad is clear and in good repair.

(c) Sediment Ponds and Impoundments-The sediment pond is almost completely empty except for a small crust of ice. The pond is in good repair. The pond embankments are clean and have very little erosion damage.

10. SLIDES AND OTHER DAMAGE

The large slide below the portal area is partially blocking the main road.

Copy of report mailed to Guy Davis/Pacificorp; Brian Smith/OSM

Copy of report given to Joe Helfrich/DOGM; Price Field Office

INSPECTION REPORT COMMENTS

Permit No. ACT/015/017

Inspection Date January 23, 1991

Please number comments to correspond with topics on previous page.

10. SLIDES AND OTHER DAMAGE (continued)

However, the road is easily passable to small vehicle traffic and drainage has been established and maintained around the slide area.

16. ROADS

(b) All road drainage controls are in good condition. Ditches are clean and dry and all culvert inlets and outlets are clean and free of ice and debris.

(c) Surfacing-Road surfaces are in good condition. Gullying in the portion of the road above the slide area has been repaired (see last inspection report).

The road adjacent to the sediment pond is clean and dry.

18. SUPPORT FACILITIES AND UTILITY INSTALLATIONS

All support facilities are, of course, idle. Parking areas and access areas are clear and in good condition. All surface facilities are being maintained well in their idle state.

Copy of report mailed to Guy Davie/Pacificorp; Brian Smith/OSM

Copy of report given to Joe Helfrich/DOGM; Price Field Office
