RE: Test Plot Location, PacifiCorp Electric Operations, Des-Bee-Dove Mine, ACT/015/017, Folder #2, Emery County, Utah

Synopsis and Analysis

PacifiCorp submitted a proposal to relocate the outslope test plots. Until results of the 1992 test plots and treatments for the outslope test plots are submitted, approval or disapproval of the plots location are premature. Depending on the number of treatments, this location may not be large enough for uniform plots. Also, prior to locating the test plots, a discussion is required as to the most desirable aspect of the plots.

Recommendation

The Division not approve any outslope test plots location until the design and treatments of the plots are proposed.
