Dear Pam,

The inspection of the special use permit for the bath-house etc at the Des-Be-Dove Mine site has shown the site to be littered and run down. We realize that the mine is legitimately under temporary cessation, but we would like to see at least that portion of the permit area on National Forest System Lands to be cleaned up and kept in orderly fashion until either the mine is sold and re-opened, or until reclamation of the facility begins.

Please contact Jeff DeFreest for any further information or if a joint Forest Service/DOGM inspection is desired. Thank you for your help in this matter.

Sincerely,

Charles J. Jankiewicz
