**Re: 15" CMP CULVERT INSTALLATION, HAUL ROAD AMENDMENT,
PACIFICORP, DES-BEE-DOVE MINE, ACT/015/017, EMERY COUNTY,
UTAH.**

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, herewith requests an amendment to install a 15" CMP culvert 20 ft. in length at approximate stationing 168+75, in the existing drain ditch alongside the Des-Bee-Dove haul road. The culvert will allow access to the UP&L transmission line. An existing 15" CMP is located in the same ditch line 500 ft. down stream from the proposed location and would indicate that pipe sizing is adequate for conditions in that drainage ditch. Please find enclosed seven (7) copies of sheet 9 of 38, drawing # CM-10584-DS, packet 5-1, Volume 6.

This situation was previously discussed with you, on April 9, 1996, during an onsite inspection.

We appreciate your help and assistance in the above matter. If you have any questions or concerns please call Richard Northrup at 687-4822.

Sincerely,

Val Payne

Sr. Environmental Engineer
