PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, hereby submits a notice of intent to reclaim the Pumphouse Area of the Des-Bee-Dove Mine. Reclamation activities will tentatively commence in mid June and continue until the work is completed. Energy West estimates that the project will take approximately one week to reclaim 1.56 acres of disturbed area.

In December 1999, the pumphouse and associated facilities were dismantled, salvaged and/or hauled off the permit area and disposed of in an approved solid waste facility. In April 2000, all non-coal waste materials that were left from demolition and previous mining and reclamation activities were removed and disposed of. Three (3) power poles remain (one (1) within the disturbed area and two (2) outside disturbed area). These power poles will be removed by Utah Power & Light Company crews before reclamation of the Pumphouse Area begins.

This memo with all attachments is provided only as a technical reference and informational document for the reclamation activities that are to be conducted at the Pumphouse Area. The Des-Bee-Dove MRP will be amended to show completed reclamation activities. The technical reference and informational document will be added to Volume 5, Appendix IV.

Changes and Additions are as follows:

- Volume 5, Appendices Index (Four redlined copies included)
- Volume 5, Appendix IV (Four non-redlined copies included)

Four clean copies of the redlined pages are included with this submittal. The C1/C2 reports are also attached, which indicate the amendments and additions to the Des-Bee-Dove MRP. For your
