Subject: **Abatement #3 for NOV 01-7-1-1, PacifiCorp, Des Bee Dove Mine, C015/017-AM01A, Emery County, Utah**

*Letter in Compliance
and filing
9/15/07
Copy Priscilla*

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, hereby submits the required abatement action for the Notice of Violation order received July 9, 2001. This order required Energy West to develop and submit for Division approval, a Soil Management Plan (SMP) for the entire Des Bee Dove Mine reclamation project. This plan was to include a complete soil volume and quality analysis, however, the volume of available suitable substitute soil is impossible to determine until an investigation of location and quality is completed.

Attached with this document is the required SMP that outlines the process that Energy West proposes to implement for determining the volume and quality of available substitute soil material for establishing a successful vegetative stand. Upon Division approval of the attached plan, Energy West will commence the soil characterization process and will include all the information submitted into Section R645-301-200 of both the Phase 1 and Phase 2 reclamation plans.

If you have any questions or concerns regarding this document, please contact myself at (435) 687-4720 or Dennis Oakley at (435) 687-4825.

Sincerely,

Charles A. Semborski
Permitting/Geology Supervisor
