Subject: Re: DBD Phase 2

Chuck,
In an earlier email today, I requested additional information for this proposed action. Unfortunately, I sent the request as a response to the change order information you presented for the cattle trail/access road area. So please direct those requests for information to the proposed disturbance immediately southwest of the portals on the Deseret pad.

The following is requested prior to disturbing this slope:

- 1) A xerox copy of Plate 500-3 showing the area proposed for additional disturbance.
- 2) A calculation of the additional disturbed area outside the existing disturbed area boundary shown on Plate 500-3.
- 3) An estimate of the volume of substitute topsoil recovery to be gained by the disturbance.
- 4) The proposed location of placement of the materials gained by the disturbance.

Thank you,

Priscilla Burton
