Subject: Re: Des Bee Dove, Change Order #2

You should probably save this email as a significant email message!!!!

>>> Angela Nance Tuesday, April 29, 2003 8:53:32 AM >>>

As Pam and I have discussed, I am going to give the Change Order #2 (which was received via regular mail on April 10, 2003) an amendment number--AM03B and mail it out as approved. I will stamp the copies Incorporated April 7, 2003, which is the date that operator says the amendment was conditionally approved.

However, as Pam mentioned, we should have some sort of approval memo etc. for the file that shows this as being approved...Jim, do you have some type of correspondence to indicate this as being approved?....

also, I have made a note on the saved emails that I received from Priscilla that indicate that the emailed versions were not processed as an official submittal. Therefore, Change Order #2 that was received in the mail will remain named Change Order #2 as opposed to Change Order #3.

THANKS!

Did Jim approve this? If he did, that's fine...but we need an approval memo or something on this...thanks.

>>> Angela Nance 04/22/03 09:38AM >>>

On April 10, 2003, we received seven clean copies of the Change Order #2 for the Des Bee Dove Mine. The letter states that the amendment was conditionally approved on April 7, 2003, however, there are no correspondences regarding this submittal, other than a few emails I saved to file last week for Priscilla.

I am just checking to see if anyone is familiar with this submittal...does it go with the already approved Phase 2 Reclamation Plan amendment? Please let me know so that we can get the clean copies mailed out as necessary.

Thanks!
Angela
