Report summary and status for pending enforcement actions, permit conditions, Division Orders, and amendments:

The Des Bee Dove site was covered with approximately one foot of snow from the late-December storms. There was no evidence of runoff. The road to the site has not been cleared and is covered with snow that has been hard-packed from apparently frequent use of the road. There were no tracks indicating off-road travel. A pickup was parked in the turn-around, the occupants had binoculars and seemed to be looking for wildlife. The cattle trail had tracks from hikers and skiers.

4.d Hydrologic Balance: Water Monitoring

There was no discharge from the sedimentation pond during the 4th quarter of 2003.
The pond discharge is the only water monitoring point for this permit.
