Subject: Mine Plan Determination - Des Bee Dove

Attached is OSM's final decision regarding the need for a Mining Plan Modification for the above subject. A signed copy will be sent to you in today's mail.

In accordance with the Federal regulations under 30 CFR 740.13(d), other Federal agencies that may have an interest in, or jurisdiction over, the above subject operation have also been notified of OSM's decision electronically.

No responses to this transmittal are necessary.

RE: PacifiCorp "Des Bee Dove" mine - Application for a Permit Revision, Right-of-Way Relinquishment

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas, & Mining's (UT-DOGGM) January 13, 2005, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Right-of-Way Relinquishment, has determined that it proposes to relinquish a 3.05 acre right-of-way on Federal lease UTU-53809 used for emergency sediment storage from a major storm event that occurred in 1983 at the Des Bee Dove mine, Utah State permit C/015/017.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGGM from coordinating the review and approval of the Application for a Permit Revision, Right-of-Way Relinquishment with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the January 13, 2005, request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic transmittal dated January 20, 2005, the U.S. Forest service stated it had no comments or concerns with the Right-of-Way Relinquishment.

In an electronic transmittal dated January 18, 2005, the Bureau of Land Management stated in its opinion the Right-of-Way Relinquishment did not constitute a mining plan action requiring Secretarial approval.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
