Re: Response to Deficiencies from Division on the Legal and Financial Information, for the Cottonwood/Wilberg Mine, C/015/019, Deer Creek Mine, C/015/018, and Des Bee Dove Mine C/015/017, and Trail Mountain Mine C/015/009, Emery County, Utah, Task #2477.

PacifiCorp, by and through its wholly-owned subsidiary, Energy West Mining Company ("Energy West") as mine operator, hereby submits updated information for the supplemental volume entitled "Supplemental Volume, Legal and Financial Information". This information is in response to the deficiencies that were received from the Division May 22, 2006 (Task ID# 2466). The deficiencies were the result of the March 2006 submittal of BLM lease relinquishment decision documents for the Supplemental Volume 1 - Phase I, II, and III Lease Relinquishment Information. As the deficiencies only required updating lease information in Appendix C of the Legal and Financial Volume, the entire volume needed updated to reflect current information.

The Legal and Financial Volume include revisions to the Deer Creek and Cottonwood legal information:

- Text Section, entire section
- Appendix A, Officer and Director lists
- Appendix C, Underground Right of Entry Information
- Appendix E, Certificates of Liability
- Appendix F, Proof of Publication
- Appendix G, Permit Boundary Description

Cottonwood Mining and Reclamation Plan - Volume 3
 Plate 1-1, Coal Lease and Ownership Map
 Plate 1-2, Surface Ownership Map

Deer Creek Mining and Reclamation Plan - Volume 4
 Plate 1-1, Coal Lease and Ownership Map
 Plate 1-2, Surface Ownership Map

The following responses to deficiencies are formatted as found in the technical analysis document. They are broken down into logical section headings similar to the R645 regulations. In each section, the regulation number along with the associated deficiency is followed by the Permittee's italicized response.

R645-301-124.300, Because lease relinquishment information is not confidential, please revise the first statement of the last paragraph on page 1-12 of the Legal and Financial Volume, concerning the location of lease relinquishment information. A better placement for this information is in Appendix C of the Legal and Financial volume (another volume common to PacifiCorp mines) that contains detailed coal-lease information that is affected by these lease relinquishments.

The cited information for partial lease relinquishment is not contained in a confidential Supplemental Volume 1 is a volume set apart from the MRP that shows the historical status of the lease. It also contains subsidence and drill hole information, as well as, informational assessments of the hydrological and biological systems of the land in which the lease sits. The Permittee suggests the paragraph under the Section heading of "Miscellaneous" remain unchanged.

R645-301-114, The Permittee needs to update the relinquished acreage in Underground Right-of-Entry Information with Cited Surface and Subsurface Ownership chart of Appendix C in the Legal and Financial Volume to agree with the March 2006 BLM documents.

The Right of Entry information in Appendix C of the Legal and Financial Volume has been updated to agree with the March 2006 BLM documents. Included with this submittal are seven copies for Division review.

R645-301-121.200, The Permittee needs to reconcile the acreage figures for lease U-1358 in Appendix C of the Legal and Financial Volume with information in the BLM lease relinquishment documents. i.e. 40 acres relinquished, 120 acres active right of way.

The noted lease, as well as other leases which PacifiCorp obtained partial relinquishment has been reconciled and show the current lease rights of way and the historical partial relinquishment of each lease. Partial relinquishment was obtained for coal leases SL-070645, U-002292, UTU-084923, UTU-084924, UTU-1358, UTU-040151, and UTU-083066. Included with this submittal are seven copies of the revised Legal and Financial Volume for Division review.

R645-301-521.131, Vol. 4, Plate 1-1 needs to be updated to show all lease relinquishments; however, all relinquished lands remain subject to SMCRA requirements and therefore should not be removed from within the permit area.

Plates 1-1 (Coal Lease and Ownership Map) and Plate 1-2 (Surface Ownership Map) in Volume 4 of the Deer Creek Mining and Reclamation Plan, and Volume 3 of the Cottonwood Mining and Reclamation Plan have been revised to show the current lease holdings and permit boundaries.

As leases are relinquished, the Permittee does not have right of entry into the lease. Therefore, these areas have been removed from the permit boundary of each of the noted Mining and Reclamation Permits.
