Subject: Vegetation Monitoring Request

Jerriane,
As I stated in our phone conversation today, Energy West wishes to monitor the entire Des Bee Dove Mine site for bond release inventory all at the same time. Our permit states that each area will be monitored for bond release in the 4th, 8th, 9th, and 10th years after reclamation. Since the Phase 1 area was completed in 2002 and the Phase 2 area was completed in 2003, there exists a 1 year lag. We propose to monitor both areas simultaneously using the Phase 2 area monitoring schedule which begins in 2007.

Please acknowledge this request by returning your decision by email.
This will ease in the record keeping

Best Regards!

Dennis Oakley
