DIV. OF OIL, GAS & MINING

September 12, 2006

United States Department of the Interior  
Bureau of Land Management  
Utah State Office  
P.O. Box 45115  
Salt Lake City, Utah 84145-0155

Dear Interested Party:

This letter is sent to inform you that Energy West Mining Company, a subsidiary of PacifiCorp, has filed an application for Phase III bond release of a portion of the Des Bee Dove Mine site, Permit Number C/015/0017. Currently, a surety bond is filed with the Division of Oil, Gas and Mining in the amount of \$1,837,712.00 and is payable to the State of Utah, Division of Oil, Gas and Mining (DOG M), and the Office of Surface Mining Reclamation and Enforcement (OSM). Energy West is not asking for a reduction of bond for this area.

Phase I Bond Release for the Phase 1, Phase 2, and Pumphouse reclaimed areas was submitted in April 2006. Since that time, XTO Energy Inc. has expressed interest in drilling a natural gas well (Well No. 17-7-25-14) within the permit and disturbed areas of the Des-Bee-Dove Mine site. The location of this drill site is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 25, Township 17 South, Range 7 East, SLB&M. The initiation of construction activities is planned for late 2006 or early 2007. The reclaimed area (Des-Bee-Dove Mine access road, reclaimed 2003) that will be directly affected by construction is 0.90 acres. However, there is a reclaimed area (Pumphouse Area, 1.62 acres reclaimed in 1999) adjacent to the drill pad that could be potentially impacted. It would be difficult for Energy West to control the direct and indirect impacts to these areas. The attached location map shows the location of the bonded area in relationship with XTO's pad layout.

Since XTO Energy Inc. has a right to reasonable access to their oil and gas lease, Energy West wishes to be relieved of their reclamation responsibility for the area initially proposed for construction. Because of the lack of control of XTO Energy's activities, Energy West also wishes to be relieved of responsibility for the area (Pumphouse Area) immediately adjacent to the drill site. The entire proposed Phase III release area encompasses a 2.52 acre parcel of land managed by the United States Forest Service, namely within the N $\frac{1}{2}$ SW $\frac{1}{4}$ SW $\frac{1}{4}$  of Section 25, Township 17 South, Range 7 East, SLB&M.

An application for a post mining land use change was submitted to the Division of Oil, Gas and Mining on August 14, 2006. This application is currently under review and will add Recreation and Mineral Development (including oil and gas development) to the current Grazing and Wildlife Habitat uses. A demonstration that the *proposed* post mining land use has been achieved is provided by the Application for Permit to Drill (APD) filed by XTO Energy Inc.

Deer Creek Mine:  
(435) 687-2317  
Fax (435) 687-2285

As required by the State of Utah, R645-Coal Mining Rules (R645-301-880), all adjoining property owners, local governmental bodies, etc, must be notified, informing them of the operators intention to seek release from bond. A public notice will be published in the Emery County Progress commencing on September 12, 2006 and will run for four (4) consecutive weeks. Comments may be submitted to the Division of Oil, Gas and Mining at an address of 1594 West North Temple, Suite 1210, Salt Lake City, Utah 84114-5801.

If you have any questions, or require further information pertaining this bond release application, please feel free to call me at (435) 687-4720.

Sincerely,

  
Dennis Oakley
