Memo to Coal File:

RE: Deer Creek Mine
Utah Power & Light
ACT/015/018a
Emery County, Utah

This mine site was visited on August 8, 1979, by Mary Ann Wright of the Division. The purpose was to observe the coal conveyor for its length down the canyon from the mine to the power plant. The conveyor was viewed with the thought of wildlife movements in mind so as to better understand references to this subject.

MARY ANN WRIGHT
