RE: Mr. E.S. Crawford's Complaint  
Relative to  
Utah Power & Light Company  
Deer Creek Mine - ACT/015/018-A  
Wilberg Mine - ACT/015/018-B

Dear Mr. Wadsworth:

Upon conferring with your client, Mr. E.S. Crawford, relative to your October 7, 1981, letter and the above referenced mining operations, I have been advised by Mr. Crawford that the thrust of the concern was to bring the U.S. Geological Survey East Mountain Hydrologic Study to our attention so that the Division staff could utilize the report during their review of the above mines.

I assured him that we were aware of the report and would consider the information when performing our review, as scheduled. Mr. Crawford advised me that an on-site inspection was not necessary at this time.

Mr. Tom Ehmett of the Office of Surface Mining has been notified of the Division's intended action regarding Mr. Crawford's concern. If you have any questions, please call.

Sincerely,

JAMES W. SMITH, JR.  
COORDINATOR OF MINED LAND DEVELOPMENT

JWS/te
