DIVISION OF
OIL, GAS & MINING

Attention: Mr. James W. Smith, Jr.

Dear Mr. Smith:

Apparently there is some confusion concerning Utah Power & Light Company's intentions regarding proposed large game crossing structures over/under the Deer Creek canyon conveyor belt.

As stated in the Deer Creek Coal Mine Permit Application we are, this winter, conducting an animal movement survey along the belt line in an effort to identify both numbers and areas where deer and elk, if any, are crossing or if sections of the conveyor are conflicting with established game trails.

Hopefully, by the spring of this year we should have the answers to most of these questions and can act accordingly.

Sincerely,

C. E. Shingleton
Director of Services
Mining and Exploration
