SALT LAKE CITY, UTAH 84110

April 6, 1983

Mr. Roger E. Frenette, Chief
Permits Administration; Compliance Branch
U. S. Environmental Protection Agency
1860 Lincoln Street, Suite 900
Denver, Colorado 80203

Dear Sir:

Please find transmitted herewith, the quarterly report for the Wilberg Coal Mine N.P.D.E.S. Discharge Permit (UT-0022896) for the first quarter of 1983. The data reported here were obtained from three samples that were collected in the quarter. The average discharge rate of 234,478 gallons per day results from a calculation that divides the number of days in the quarter (90) into the total gallons discharged (21,103,000) even though water was not discharged continuously.

Also find transmitted herewith, quarterly discharge reports for Cottonwood Mine, Deer Creek Mine, Des-Bee-Dove Mines, Wilberg Mine sediment ponds and Wilberg Mine discharge (location 004) for the first quarter of 1983. As noted on the discharge reports, no water was discharged from any of the locations during the reporting period.

Sincerely,

C. E. Shingleton
Director of Services
Mining and Exploration
