Memorandum

To: Utah Senior Project Manager, OSM, Denver
Attn: Shirley Lindsay

From: Chief, Branch of Mining Law and Solid Minerals, USO

Subject: Utah Power & Light Company, Deer Creek Mine, Emery
County, Utah, Mining and Reclamation Plan (MRP),
Apparent Completeness Review (ACR)

The subject ACR dated June 1, 1983, was received in this office on August 26, 1983. We have reviewed the two-volume ACR submittal for conformance with the new 30 CFR 211.10(c) rules effective August 30, 1982, and for compliance to the deficiencies and special requests listed in our memorandum dated July 17, 1981. The July 17, 1981, memorandum is the review for completeness and technical adequacy of the six-volume subject MRP plan which was received in this office on April 27, 1981.

We have determined that the total permit application received in this office will safely obtain maximum economic recovery of the resource using the planned technology and equipment.

Within the limits of our authority, we recommend approval of the underground mining plan part of the total mining and reclamation plan permit application package.
