A SAVAGE BROTHERS COMPANY

RECEIVED

AUG 1 1984

DIVISION OF OIL
GAS & MINING

July 30, 1984

Mr. Ken Wyatt
Division of Oil, Gas & Mining
Natural Resources & Energy
State of Utah
4241 State Office Building
Salt Lake City, Utah 84114

Dear Ken:

Engineering work is proceeding on the modified design. However to properly evaluate the lining material proposed and to find a reliable source will require several laboratory test samples be taken and evaluated. Once this source is found a design based on these results can be finalized.

In light of the difficulty we have experienced in this aspect, we request a fifteen (15) day extension to August 21st, 1984, for submittal of plans as required by Part B of the NOV.

Your attention to this matter is appreciated. If you require further information please call.

Sincerely,

Larry Guymon
Construction Manager
