Coal File

Dear Mr. Jense:

Utah Power and Light Company's amendments to its 1984 Coal Exploration Plan is partially approved as follows:

1. Only drill holes EM-108, EM-109, EM-110 and EM-111, all located on private surface, are approved.
2. Reclamation will be to surface owner's satisfaction.
3. Drill holes will be plugged according to the attached stipulations.
4. A road use permit from the Forest Service is required for access to East Mountain.

Approvals for the other six holes (EM-112, EM-113, EM-114, EM-115, CM-6 and CM-8) are awaiting Forest Service concurrence.

Please note an error on our May 2, 1984 approval letter. Drill hole EM-67 is approved and was mistakenly omitted in the letter.

If you have any question please contact Stephen Falk of my staff or myself.

Sincerely yours
Samuel R. Rowley
Samuel R. Rowley
Area Manager
