Re: Permitting Coal Preparation
Plants and Loadouts

Dear Dr. Nielson:

This will respond to your letter of September 25, 1985. I have reviewed the letter and its enclosure and have concluded that Utah Power & Light Company has no facilities which would come within the definition set forth in Section 701.5, Page 28189, of the enclosure. Consequently, we have no need to file the permit application referred to in your letter.

If you have any questions regarding our interpretation of the revised rules, please contact me or Ralph Jerman at 535-4253.

Sincerely,

D. W. Jense, Manager
Mining and Exploration
