Memorandum

JUN 25 1985

*ACI/015/08
#2*

To: OSM Senior Project Manager
State of Utah, Denver

Attn: Louis Hamm

From: Chief, Mining Law and Solid Minerals, BLM State Office,
Salt Lake City

Subject: Utah Power & Light Company, Deer Creek Mine,
Emery County, Utah, Permit Application Package (PAP)

The Resource Recovery and Protection Plan (R₂P₂) or underground mining part of the subject PAP has been considered adequate for BLM administration of the associated Federal coal leases. Our memoranda dated October 15, 1983, October 31, 1984, and March 14, 1985, state that we concur with the Deer Creek mine R₂P₂, as amended, on file in this office, and recommend that it be included as an integral part of the subject PAP.

On April 11, 1985, we received additional pages and maps supplementing the subject PAP. This information was forwarded with your letter dated April 9, 1985, and identified as "03/22/85 submittal of revisions for mining and reclamation plan, 5-year increment mine plans with the time schedules for the life of the mine."

Our review of the above referenced maps and pages, including underground mine plan changes, did not identify any conflicts with the proposed R₂P₂ or with future recovery of the coal resource within the plan area.

We concur with the Deer Creek Mine R₂P₂, as now amended, on file in this office, and recommend that it be included as an integral part of the subject PAP.
