RE: Deer Creek T.A. Review

John Whitehead
AM 1/05/85
#2

Due to circumstances beyond our control we have to turn around the Deer Creek OSM version of the T. A. by Tuesday of next week. Therefore, please do your review per the following:

1. Focus on major issues, high points, and items which based on your experience tend to have a high environmental impact.
2. Feel free to write a disclaimer for those areas which you just do not have time to research in depth.
3. If major problems are noted please write them up in paragraph form for inclusion in a letter I will compile.
4. Add stipulations as you deem necessary, again written in final form for inclusion in a letter.
5. For minor items, editorial changes etc. annotate these on the original copy of the OSM T.A.
6. Please complete all review and have write up to me by 5 pm Monday, March 25.

Revegetation-Wildlife, other related	Steve
Biology matter	
Soils and toxic materials, etc.	Ev
Engineering, Roads, Legal and	
Financial, Bonding	Pam
Surface water Hydrology and	
related areas	Tom Munson
Geology, Groundwater and Boreholes etc.	Rick Smith

Please review the performance standards regulations which are usually assigned to your discipline. Ask me if you have any questions.
