September 12, 1985

Mr. Larry J. Guymon
Construction Manager
Emery Mining Corporation
P. O. Box 310
Huntington, Utah 84528

Dear Mr. Guymon:

Re: July 24, 1985 Request for Variance on Submittal of Engineering and Inspection Reports for Waste Rock Disposal Sites, Deer Creek and Wilberg Mines, ACT/015/018 and ACT/015/019, Folder No. 3 & 4, Emery County, Utah

The Division has reviewed your request for variance on the timeframe required to submit inspection reports on the waste rock disposal sites for Deer Creek and Wilberg Mines. A careful review of UMC 817.71(i) indicates that a certified report must be provided to the Division within two weeks after each inspection. There is no provision for a variance to be granted in our present regulations.

The Division appreciates your concern in this matter, however we are unable to grant your request.

Sincerely,

D. Wayne Hedberg
Permit Supervisor/
Reclamation Hydrologist
