AMENDMENT TO  
APPROVED Mining & Reclamation Plan  
Approved, Division of Oil, Gas & Mining

by DWH date 10/3/86

Re: Amended Plan - 8" Water Supply Line  
Deer Creek Mine, ACT/015/018, Emery County, Utah

Dear Mr. Braxton:

Submitted are three (3) copies of an amended plan for the 8" water supply line which we are currently constructing within Deer Creek Canyon in Emery County, Utah. This plan will serve as a project update and an addendum to the approved plan dated August 19, 1986. Said plan addresses two critical areas; the first area by the conveyor transfer tower has experienced many problems with boulders requiring additional excavation work, and the second area located towards the end of the conveyor belt has been relocated to the north side of the conveyor to protect the stream. See Map #CM-10673-DR enclosed.

Installation of said pipe has resulted in more disturbance than first anticipated; therefore, UP&LCO proposes to implement interim reclamation activities immediately utilizing techniques and seed mixtures approved within the Deer Creek Mine MRP.

We would appreciate your help in reviewing this amended plan as early as possible.

If you have any questions please contact me.

Sincerely yours,  
*C. E. Shingleton*
