Dear Dr. Nielson:

The Office of Surface Mining Reclamation and Enforcement (OSMRE), Western Technical Center (WTC), has received Utah Power and Light's submittal, dated June 16, 1986, for an amendment to Utah permit No. ACT/015/018 for the Deer Creek mine. The amendment involved reclamation plan for diesel repair shop. OSMRE reviewed this submittal and has determined that it does not constitute a modification to the approved mining plan under 30 CFR 746.18. Based on our review of the submittal, OSMRE concurs with the Division of Oil, Gas and Mining's (DOGM's) decision to approve the submittal as indicated in DOGM's letter dated June 23, 1986, and the Federal permit UT-0016, dated October 1985, is revised accordingly.

If you have any questions, please contact Rick Lawton or Richard Holbrook at (303) 844-2451.

Sincerely,

Melvin L. Shilling, Chief  
Mining Analysis Division
