DEER CREEK MINE

DIESEL MAINTENANCE BUILDING

The diesel maintenance building at the Deer Creek Mine is a 1440 square foot (24' X 60') steel frame metal building attached to the mine shop and warehouse building.

The building is equipped with concrete surfaced maintenance and steam cleaning areas for service and maintenance of the mine related diesel equipment.

Standard building maintenance procedures will be followed to maintain the facility's function and appearance.

During reclamation, the building will be dismantled. Steel parts will be salvaged or sold for scrap. The concrete will be broken up and used for coarse backfill.
