RE: Review of Abatement Plan to NOV 86-4-3-3, 3 of 3, Fan
Access Road, Deer Creek Mine, ACT/015/018, Emery
County, Utah.

I recommend that the NOV be terminated, once they submit the necessary changes to be included in the Deer Creek MRP. My review was based on the assumption that the road is indeed a Class III road and the clarification of the description of this road classification in the MRP was the issue.
