TO: File

FROM: Pamela Grubaugh-Littig, Reclamation Engineer *pal*

RE: Deer Creek Water Supply Line, MRP Amendment, Deer Creek Mine, Utah Power & Light Co., ACT/015/018 #2, Emery County, Utah

The proposed MRP amendment dated May 20, 1986 has two deficiencies. The narrative states on page 11, UMC 784.23 that the design has been certified. The maps submitted were not stamped or certified. The reclamation cost estimate was not included in the submittal and should have been. Therefore, certification and a detailed cost estimate must be submitted to the Division.
